Large Cents

Eric:

Some of our Early American Coppers researchers are attempting to trace large cents that have not appeared since 1957. These were bought by Allen E. McDowell at the December 7, 1957, New Netherlands sale. It is believed these were sold to a St. Louis dealer, Jake Hendin, in the 1970's. They have not appeared on the market since then.

The missing cents are all 1794's including S-30, AU50 / S-40 F12 / S-43 AU50 / S-45 VF20 / S-46 VF35 / S-58 EF45 / and S-62 VF25.

Did you buy any large cents from Jake Hendin? Did you ever have or currently have these in your collection?

Pete Smith

Dear Pete:

Our collection does not have any of the US cent items you are looking for. I believe Jake Hendin was the father of David Hendin who is an expert in early Jewish coinage as you may know and he currently publishes numismatic articles. He lives in the New York area I believe. I will try to figure out who may have them but chances are dim. My best Eric

Dear Pete:

Since you are the source for data on people I not only thank you for the congratulations for reaching 99 but call your attention to the fact that if I were Chinese I would be 100 as the year of one's birth is counted as 1 but unfortunately I have not learned to squint as yet. Eric

Hello Pete Smith: Nice to hear from you. I assume this is the Pete Smith of Numismatic Biographies fame. If this is you, Pete, would you be kind enough to call Eric Newman. His telephone is [REDACTED]. He has been anxious to be in contact with you for some time. If you are a different Pete Smith, I apologize and please disregard the above. If this is a Pete Smith other than the author of numismatic biographies, please give me an outline of what you wish to research, how you are planning to use it and any previous publications, or numismatic references you might offer.

If you are the author above,

What can we do for you ?

This is the best address for email for the moment at least. You can also use

[REDACTED] if you prefer. Looking forward to hearing from you. Tom Serfass, Curator, Newman Money Museum

Hi Eric:

Pete Smith is working with Joel Orosz and Len Augsburger on the coinage of 1792. Specifically, he would like

images of your

- A) Silver center cent
- B) copper disme (1792)
- C) half disme (1792)

and he also requested any pedigree information you have for each coin.

I asked him very nicely to contact you. I hope he has done so.

Enjoy the vineyard ! Tom

Eric:

Happy Birthday. May you have many more.

And thanks for creating the Newman Numismatic Portal. It is an excellent resource.

Pete Smith
